

NITO ERGO Water Gun

Ergonomic Design.

Heat protection lightweight gun that can be used for several hours.

MAX
10 BAR

MAX
+80 °C

Design allows for **long-term** use without overheating the handle

NITO ERGO is a hot water gun designed for long time use. The gun is produced in a chemical resistant and composite material that insures low weight. The handle is designed so it doesn't get hot and the low weight makes it good for uses.

Advantages:

- The shape of the gun ensures thermal protection of the handle
- The trigger is protected against unintentional activation – Provides safety!
- The trigger can be locked – this is an advantage for long time use
- Infinitely variable flow regulation optimizes the quantity of water what-ever the task
- Made of impact-resistant composite material with a high resistance to chemicals
- Low working load due to the ergonomic design and a very low weight
- A product ensuring a high user satisfaction
