

Hospitality - Hotel Minibars

Flyingbar

The minibar is revolutionized and transformed into an elegant piece of furniture for the hotel room.

FLYINGBAR is the wall-mount glass door minibar, the thinnest in the world for a freer and more functional installation, favouring greater accessibility and usability for the hotel guest, even in the case of impairment. FLYINGBAR combines the well-established Smart technology with a next generation Italian design, by using the energy saving cooling system in extremely small spaces. Realized in collaboration with the famous Milanese architect Massimo Mussapi, as part of the FLYINGROOM project, the FLYINGBAR contributes to maximum freedom in the spaces and furnishings of the hotel room, thanks also to its innovative wall-fixing system.

Technical features

Product class	20	Consumption (kWh/24h)	0,258
Input voltage (V - Hz)	230 V - 50 Hz	Power absorption (W)	40
Sound emission (db)	37	Dimensions (HxWxD) (mm)	510x500x200
Packaging dimensions (HxWxD) (mm)	600x600x300	Net weight (kg)	20,5
Gross weight (kg)	22	Net volume (L)	12
Energy efficiency class	F (former A++)	Cooling technology	Compressor
Refrigerant gas	R600a	Installation type	Built-in, Free installation
Door type	Glass door	Colour	Black
Certifications	CB, CE
